We can offer this craft at the discounted package price of: £62,417.05 Total Inc Vat @ 20%

At XS Ribs we pride ourselves on the quality and value that we offer, whilst we strive to quote the keenest prices possible we also use only the best materials and practices in the industry. An XS Rib is made to a higher specification than many other craft on the market:

- * Our standard fabric is 1580 Decitext PU OR 828 Orca Hypalon. **THIS IS A NO COST OPTION.**
- * **ALL** our consoles and seating are **BONDED** down not screwed in.
- * **ALL** metal work is bolted down with stainless nyloc's and finished with dome nuts.
- * **ALL** Our hulls are all built to exacting MCA commercial specifications.
- * **ALL** our inboard fuel tanks are METAL, not plastic.
- * We offer a whole boat 3 year warranty plus 5 year fabric warranty, **THE BEST ON THE MARKET.**
- * The **WHOLE** craft is made in our factory in the **UK**, we source all our components in the **UK**.
- * ALL craft are built to order, they are not stock craft modified and added to.
- * When comparing quotes always check, internal length, overall beam, tube diameter of the collar, the specification of metal work in back rests and A Frames. The specification of the batteries, steering and control cables used and that you have got in the quote **ALL** that you have asked for, so often other makers quote you for what they want to supply **NOT** what you want ! Alas.....

THE DEVIL IS IN THE DETAIL !

We strive at XS to build a boat of the highest quality to the precise specification that the client wants at the MOST competitive price. The XS has a LOT of specification in it as standard that is NOT on many other craft.

We welcome the opportunity to discuss other craft that you may be looking at and to high light the (substantial) BENEFITS that the XS will have.
