The XS 850 is a true expedition craft, with immense payload and seating capacity this craft is well suited to substantial leisure use as well as a multitude of full blown commercial applications. As with all XS craft each one is built to order to your precise specification. You can design this craft to be ultra functional as well as aesthetically pleasing. The images show the wide variation of styles that the craft is capable of.

All XS craft are made in the UK, we start with a barrel of resin and a roll of fabric and make the whole boat IN HOUSE at our factory in Yorkshire. All metal work, fuel tanks, steering and fittings are sourced in the UK and are supplied to the relevant ISO standard for the item. All consoles and seating are BONDED to the deck, NOT screwed down. We pride ourselves in the quality we deliver. This is why these craft do the job and last, durability is BUILT IN.

XS – Ribs: 14 West Burrowfield, Welwyn Garden City, Herts, AL7 4TW
